

## Simon Oliver - Tailored Training Services: AutoCAD & AutoCAD LT New Features

- Target Audience:** This course is aimed at existing users of either the full blown package or the cut down equivalent - AutoCAD LT.
- Pre-Requisites:** Delegates must be familiar with the topics up to the level 3 (advanced) course.
- Duration:** 2-3 days would be required to cover these topics through practical hands-on guidance on how to use the software.
- Format:** Example drawing exercises would be used to cover a wide range of drafting applications. I would also be happy to incorporate any specific sample drawings you may care to provide to make the training as relevant as possible.
- Location:** All training is carried out on-site in your office using your own computers. As well as learning how to use the software, you will be shown how to set up defaults and system variables that will help you going forward.

- The Ribbon
- Application Menu
- Real Time Search
- PDF Import
- Centre Lines and Centre Marks
- Steering Wheel
- Action Recorder
- Annotation Scaling applicable to text, dimensions, multi-leaders, hatching and blocks

## AutoCAD & AutoCAD LT New Features

**PLEASE NOTE:**

*All of the training courses that I provide would be tailored to your exact drafting application and I aim to be as flexible as possible in order to make the training totally relevant to you and the way that you work.*

*Therefore, particularly with the intermediate and advanced outlines, the topics are easily interchangeable to allow you to have a bespoke course outline.*
